OBJECTIVE

I am curious and self-motivated learner. My areas of interest are Web designing, image processing and Machine learning. My motive is to get industrial training that will help to improve my programming skills. And want learn the new concept. And I am also interested in management. So, I want to get experience at best level.

PROJECTS

U-CONNECT (Android Application)

This app Basically connect the university and student. There is Chat-bot, Map in this app of the University. There are some basic details of the Teachers in this app so Student can directly connect with Faculty. In this project we were in group of four people.

Hand Gesture Recognition using TF Learn.(Machine Learning)

This project is on Machine Learning. It about to control mouse by hand. So, as we will move our hand in front of camera of PC/laptop by recognizing that the cursor will take action accordingly

TechDeck

This an website are you can take any course, about programming. The basic aim to develop this website is that to learn PHP,MySQL,JavaScript,CSS,HTML.

ACTIVITIES

- Attended Machine Learning workshop by Google (OCT 2019).
- Image classification using ML with Tensorflow and Keras conducted by CSI (JAN 2020)
- TCS ION certificate for Career edge

OTHER BASIC SKILLS

- MS Office
- Leadership, Good sense of humor.

EXTRA-CURRICULAR

I was a volunteer at many events like Gujrat Hackathon and CSI events of regional level and many more.

EDUCATION

10th,Ambe School

89.52 Percentile Rank

12th,Modi School

86.89 Percentile Rank

Bachelor of computer Science, CHARUSAT Uni.

CGPA : 8.6/10

CURRENTY PERCUING 4TH SEMESTER

KEY SKILLS

- C, C++, JAVA, SQL
- HTML, CSS, JAVASCRIPT
- ORACLE, FIREBASE
- ANDROID
- OPENCV
